

*AMENDMENTS TO THE SPECIFICATION*

At page 1, line 3, insert: "FIELD OF THE INVENTION"

At page 1, line 7, insert: "BACKGROUND"

At page 1, line 24, insert: "SUMMARY OF THE INVENTION"

At page 5, line 8, insert: "BRIEF DESCRIPTION OF THE DRAWINGS"

At page 5, line 14, insert: "DETAILED DESCRIPTION OF THE DRAWINGS"

Amend the paragraph beginning at page 8, line 25 by the following:

The spacing between the back plane of actuator structure 12 and support structure 10 allows air to circulate between actuator structure 12 and support structure, whereby heat generated in actuator structure 12 can be removed without directly heating support structure 10. In an embodiment, which is intended for applications where the plane of actuator structure is placed horizontally with respect to gravity, thermal isolation material is provided on the walls of the cells ~~4044~~ of the honeycomb. In this embodiment the honeycomb structure has openings, to allow air to circulate to and from the back plane of the actuator structure 12 through respective ones of the cells ~~4044~~ of the honeycomb structure.
